MUSKAN GUPTA

Frontend Developer | React.js | Next.js | TypeScript

Nagpur, Maharashtra | muskang5677@gmail.com
linkedin.com/in/muskan-gupta-002ab5247 | github.com/muss05

PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building enterprise e-commerce applications using React.js, Next.js and TypeScript. Built 30+ reusable UI components (approximately 20% less development effort), integrated REST APIs across catalog, cart, checkout and account flows, and improved Core Web Vitals (LCP, CLS, INP). Skilled in WCAG 2.1 accessibility, Google Analytics 4 ecommerce tracking and AI-assisted development; Anthropic Claude Academy certified and a multiple-time Quarterly Performer Award recipient.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, SCSS
Frameworks & Libraries: React.js, Next.js (App Router), React Hooks, Context API, Tailwind CSS, REST API Integration
Performance: Core Web Vitals, Lazy Loading, Code Splitting, Bundle and Image Optimization
Accessibility: WCAG 2.1, ADA, ARIA, Semantic HTML, Keyboard Navigation
Analytics & Security: Google Analytics 4 (GA4), XSS Remediation, DOMPurify
AI: Generative AI, Prompt Engineering, LLM Integration, Claude, AI-Assisted Development
Tools: Git, GitHub, Jira, Postman, Chrome DevTools, VS Code, npm, Agile/Scrum
Familiar with: Zustand, SWR, Jest, React Testing Library, Prisma, PostgreSQL

PROFESSIONAL EXPERIENCE

Associate Web Developer (Frontend - React.js / Next.js) **Jul 2024 - Present**

Amla Commerce (Znode) - Enterprise e-commerce storefronts built with React.js, Next.js and TypeScript

- Designed 30+ reusable UI components, reducing development effort by approximately 20%.
- Integrated REST APIs for authentication, product catalog, shopping cart, checkout, customer account and order workflows.
- Built configurable drag-and-drop Page Builder components enabling dynamic content management.
- Implemented Google Analytics 4 (GA4) ecommerce tracking across product, cart, checkout and purchase journeys.
- Optimized Core Web Vitals (LCP, CLS, INP) using lazy loading, code splitting and image optimization.
- Applied WCAG 2.1 accessibility practices using semantic HTML, ARIA and keyboard navigation.
- Improved frontend security through dependency upgrades and XSS remediation using DOMPurify.
- Resolved production issues in rendering, pagination, analytics, localization, validation and responsive layouts.
- Collaborated with cross-functional teams in Agile sprints; received the Quarterly Performer Award multiple times for consistent delivery.

PROJECTS

ShopSphere - AI-Powered Full-Stack E-Commerce Platform

Tech: Next.js 16, React 19, TypeScript, Zustand, Prisma, PostgreSQL, Generative AI

- Built a full-stack e-commerce platform using Next.js App Router, React 19 and TypeScript, using AI-assisted development to speed up scaffolding, schema design and UI component delivery.
- Added AI-assisted semantic product search and product recommendations; managed client cart state with Zustand and localStorage persistence.
- Built a PostgreSQL/Prisma data layer with 10 relational models and added unit tests with Jest and React Testing Library.

AI-Powered Page Builder Prototype | *React.js, Next.js, Generative AI*

- Developed a prototype that generates drag-and-drop widgets from natural-language prompts.
- Reduced page creation time by approximately 30% with a reusable widget architecture for scalable page generation.

AI Jira Time Logger Agent | *Next.js, TypeScript, Generative AI*

- Built an AI assistant that generates Jira worklog suggestions from completed development tasks, reducing manual effort by approximately 40% and improving reporting consistency.

EDUCATION

Bachelor of Engineering (Computer Science) **2023**

Institute of Engineering, Jiwaji University | CGPA: 9.2/10 | Gold Medalist

CERTIFICATIONS & AWARDS

- **Certifications:** Claude Academy Certification - Anthropic; Web Development Bootcamp; Python Programming
- **Awards:** Quarterly Performer Award (multiple times) - Amla Commerce; Gold Medalist - Bachelor of Engineering
